The System Wide Sales of Jollibee Foods Corporation, a measure of all sales to consumers from both company owned and franchised stores rose 14.6% in January-March of 2005 compared with the same period last year. Net Income, however, decreased by -6.2% as the rapid increase in the cost of utilities reduced its Operating Margins.

Mr. Tony Tan Caktiong, Chairman and Chief Executive Officer stated that he is concerned about the short term effect of high inflation rate on JFC’s sales volume and profit but sees stronger business performance in the long term. “We continue to be encouraged by the performance of our Yonghe King business in China. We’re also pleased with the strong start of our new Chowking store in Indonesia and the recovery of Jollibee business in Vietnam where sales grew by 46.1% in the first quarter. These developments continue to give us indications that we will be able to build a meaningful business abroad over the next years. In the Philippines, we still

see many opportunities for geographical and food segment penetration in the years ahead.”

System Wide Sales of Yonghe King grew by 27.2% in the first quarter of 2005 versus same period in 2004. In the Philippine business, Jollibee brand’s system wide sales increased by 6.2%, Chowking by 15.9%, Greenwich by 4.5% and Delifrance by 31.5%. The JFC Group opened a total of 23 stores in the first quarter of 2005.

Mr. Tony Tan Caktiong added that in the Philippines where the Jollibee Group operates a total of 1,072 stores, its brands grew at about half the growth rate in the first quarter of 2004. “We attribute the lower sales growth rate to inflation pressures on consumer spending and on likely lower growth rates in agricultural output and in the GDP. The lower sales growth rate was consistent across regions.”

Mr. Ysmael V. Baysa, JFC Chief Finance Officer disclosed that the increases in the cost of raw materials had been recovered resulting in improvement in Gross Margin from 48.0% in Q1 of 2004 to 50.8% in Q1 of 2005. However, the increases in cost of power, fuel and transport had not yet been recovered resulting in contraction in Operating Income margin from 8.6% in Q1 2004 to 7.4% in Q1 4 2005. “We have a short term objective of restoring our profit margin to last year’s level but our chance of achieving that is largely affected by what will happen to inflation rate in the balance of 2005.” He added that notwithstanding the lower profit in Q1 2005, JFC was able to achieve a healthy 16.8% Return on Equity and generated 168 million pesos in cash from operations, which was slightly better than the first quarter of 2004.

The Jollibee Group of Companies operates the country’s largest fast food chain. As of end of March, 2005, it had 1,072 stores: 501 Jollibee, 312 Chowking, 227 Greenwich and 32 Delifrance. It also operates a total of 119 stores outside of the Philippines mostly Yonghe King in the People’s Republic of China with 86 stores - for a total of 1,191 stores worldwide as of March 31, 2005.

Notes and Other Disclosures

- The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the Philippines under the historical cost basis.
- The Company adopted the same accounting policies, standards and methods of computations applicable to the 2004 audited consolidated financial statements, as follows:
 - SFAS 17/IAS 17, "Leases,"** which resulted in the recognition of lease expense (the Group as "lessee") and lease income (the Group as "lessor") under operating leases on a straight-line basis. Previously, lease payments were recognized as expense or income on the basis of the terms of the lease agreements.
 - SFAS 12/IAS 12, "Income Taxes,"** which requires deferred income taxes to be determined using the balance sheet liability method. The standard also requires the classification of deferred tax assets and liabilities as noncurrent items in the balance sheet.

3. Food service operations have both peak and lean seasons. The material financial impact of this season has been considered in the financial forecasts.

4. Segment Information
The Group's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

> The food service segment is involved in the operation of QSRs and the manufacture of food products that are sold to company-owned and franchised QSR outlets.
