(Note: All references versus same period last year.)

Revenues of Jollibee Foods Corporation grew by 13.6% in the second quarter of 2006 compared to the same period last year driven by the opening of new stores and the acquisition of Red Ribbon Bakeshop. In the first six months of 2006, the restaurant chains belonging to the Jollibee Group opened a total of 84 stores in local and foreign markets-compared to 37 new stores in the same period last year, while Red Ribbon Bakeshop which JFC acquired in October 2005 added almost Php 1.4 billion or 7.0% to its System Wide Sales, a measure of all sales both from company-owned and franchised stores.

“We accelerated the growth of our store network in 2006 despite the difficult business environment which is characterized by tightened consumer spending and rising costs, in order to continue to grow the market and to build stronger foundations for our future businesses”, Mr. Tony Tan Caktiong, JFC Chairman and Chief Executive Officer mentioned in a statement disclosed to the SEC and PSE and released to the press.

“We are also encouraged by the progress in our key projects across business units and corporate functions which are aimed at delivering significant long term impact on our growth and profitability. These included plans for the expansion of Red Ribbon both in the Philippines and in the US, the resurgence of growth of Jollibee brand in the US.

major product improvements in Yonghe King in China, continuous product improvements and new product introductions in our established businesses in the Philippines and the operation of our Shared Services in Manila”, Mr. Tan Caktiong added.

JFC Chief Finance Officer Mr. Ysmael V. Baysa disclosed that the company is in a position to generate a healthy profit growth in 2006 based on the first six months of actual financial results. “With the Php 1,050 million of net income generated in the first half of 2006, JFC may achieve a double digit profit growth rate over the Php 1,690 million net income it made in 2005”, Mr. Baysa stated. He cautioned, however, that the business environment remained very challenging. “Based on our research, consumers were eating out of home less often in the first and second quarters of 2006 compared to the same periods in 2005, even though in 2006- the economy grew slightly faster, the agriculture harvest was much higher, while inflation decelerated slightly”, Mr. Baysa added.

JFC’s net income in the second quarter of 2006 rose 10.0% compared to the same period last year while net income for the first six months grew by 15.3% over the first six months of 2005. The Operating Income margin, a very important measure in a time of rising costs were only slightly below 2005 level and already higher than the 2004 levels.

“Our Operating Income Margin of 9.0% of revenues in the second quarter of 2006 was just slightly below the level we achieved in the same period of 2005 with 9.2% of revenues but already above the 2004 level of 8.3% of revenues. These numbers indicated that our efforts to recover profit margins from rapidly rising costs were working. These efforts involved a combination of cost and efficiency improvement and a program of slight price adjustments”, Mr. Baysa stated.

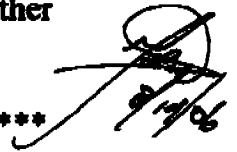

JFC invested Php 876 million in capital expenditures mainly on new stores- in the first six months of 2006, 68% higher than the amount spent during the same period in 2005. It generated Php 1.7 billion of cash from operations, 27% higher than the amount made in the same period in 2005.

The Jollibee Group opened a total of 84 new stores in the first six months of 2006 broken down as follows: in the Philippines- Jollibee brand 28, Chowking 18, Greenwich 9, Red Ribbon 15, and Delifrance 3 for a total of 73 new stores; abroad- Yonghe King in the People’s Republic of China 7, Jollibee in Vietnam 1, Chowking in US 1,

Chowking in Dubai 1, and Red Ribbon in the US 1 for a total of 11 new stores in foreign operations.

The JFC Group operates the Philippines' largest restaurant network. As of June 30, 2006 it was operating a total of 1,315 stores in the country: Jollibee brand 550, Chowking 341, Greenwich 241, Red Ribbon 144, and Delifrance 39. Abroad, it was operating 162 stores: in the People's Republic of China- Yonghe King 104, in the United States- Jollibee 10, Red Ribbon 18, and Chowking 10, in Dubai in the United Arab Emirates- Chowking 5, in Indonesia- Chowking 3, and in other parts of Asia 12, for a total of 1,477 stores worldwide.

Jollibee Foods Corporation
Notes and Other Disclosures

1. The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the Philippines as set forth in the Philippine Financial Reporting Standards (PFRS). PFRS includes statements titled PFRS and Philippine Accounting Standards (PAS), including Interpretations, issued by the Philippine Accounting Standards Council.

The consolidated financial statements have been prepared on the historical cost basis, except for derivative and available-for-sale financial assets in the 2005 balance sheet which are carried at fair value.. The consolidated financial statements are presented in Philippine peso, the Jollibee Group's functional and reporting currency, and all values are rounded to the nearest peso, except when otherwise indicated.

2. The consolidated financial statements comprise the financial statements of Jollibee Foods Corporation and its subsidiaries as at June 30, 2006.

All intra-group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions that are recognized in assets and liabilities, are eliminated in full. Unrealized losses are eliminated unless costs cannot be recovered.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Parent Company obtains control, and continue to be consolidated until the date that such control ceases.

3. The Company adopted the same accounting policies, standards and methods of computations applied in the 2005 audited consolidated financial statements.
4. Food service operations have both peak and lean seasons. The material financial impact of this seasonality has been considered in the financial forecast.

5. Segment Information

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

- > The food service segment is involved in the operation of QSRs and the manufacture of food products to be sold to company-owned and franchised QSR outlets.
- > The franchising segment is involved in the franchising of the Group's QSR store concepts.
- > The real estate segment leases store sites mainly to the Group's independent franchisees.

The Group generally accounts for inter-segment sales and transfers as if the sales or transfers were to third parties in current market prices.
